

I live in Austin, Texas and am concerned about the proposed changes that will affect my ability to listen to K-LOVE. This station serves as a positive influence to my and my family.

I believe it also offers an irreplaceable positive alternative to our community. Mainly, b/c the the only other 'Believer' listening option we are able to access is The Candle 88 FM, which is locally known to be operated in direct violation of FCC regulations with on-going illegal activities occurring on the premises.

If we were to lose K-LOVE due to displacement by an LPFM broadcaster providing other programming, I feel we would lose a vital part of our community's well-being.

Please feel free to contact me for further information or questions you may have.

Warmest regards,
SD Moulton
